**INFORMATION FOR PATIENTS**

Beautiful and magnificent hair has always been a standard of beauty and health, not only for women, but also for men.

When hair falls out and splits, becomes dry and brittle, many people start to change the hair care products, use healing hair masks, without finding out the real reason of the problem.

Meanwhile, for normal hair growth, it is necessary, first of all, the health of the hair follicles and the guaranteed flow of all nutrients to them.

# The Reasons

FOR BAD HAIR QUALITY AND HAIR LOSSES MAY BE:

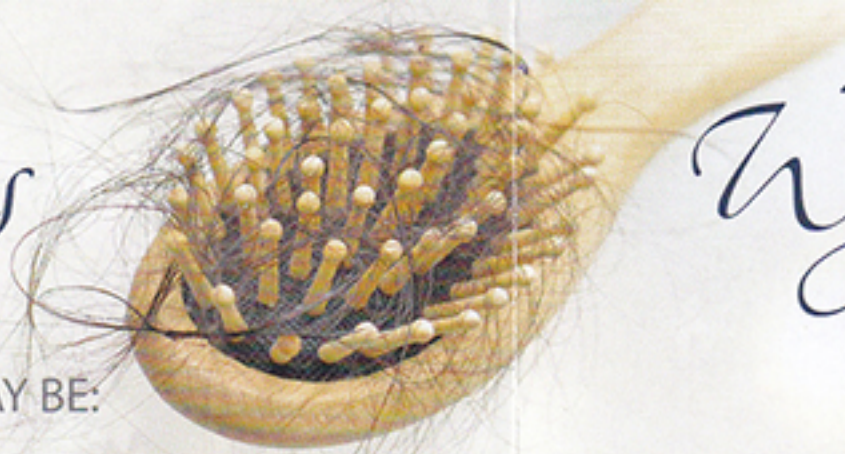

- ⦿ Unbalanced diets that cause a deficiency of essential nutrients
- ⦿ Stresses, negative external factors that cause spasms of blood vessels and block the nutrition of hair follicles
- ⦿ Poor blood circulation
- ⦿ Genetic predisposition to baldness
- ⦿ Hormonal disruptions
- ⦿ Prolonged sun exposure
- ⦿ Taking medication
- ⦿ Hair dyeing, perming and bleaching hair

# How to SOLVE THE PROBLEM?

In these cases, the use of external cosmetic procedures or natural hair products is ineffective.

In order to keep hair thick and healthy, it is necessary to ensure the direct supply to the hair follicles of the necessary nutritional and strengthening micronutrients.

This will help mesotherapy of hair (non-invasive, classic or microneedling) - a procedure that has earned authority for its high efficiency.

# What

IS HAIR MESOTHERAPY?

This is a treatment with multicomponent solutions containing vitamins, amino acids and other microelements that are necessary for healthy hair and scalp.

## What Results

### CAN YOU EXPECT?

- After 1-2 treatments, the result, as a rule, is invisible, since it takes months to treat hair follicles.
- In order for healthy hair to grow from a diseased hair follicle, you first need to completely restore it, providing the follicle with everything necessary for growth and nutrition.
- After one course (6-10 treatments), the hair stops falling out. Next to the old hairs, new ones appear. The hair itself becomes obedient, soft and shiny.
- But to obtain the final result, you may need several courses, that can be performed during the year.

# Recommendations

## AFTER THE TREATMENT:

- Do not take a shower or bath after treatment for 8-10 hours
- Do not visit the solarium and do not stay for a long time in the sun for 2 days after therapy
- Do not use other hair care products within 12 hours after treatment (masks, massage, etc.)
