Section V Fire Fighting Information		Section VI Accidental Release Measures																																																									

Product is not highly flammable	Product is not toxic to individuals or the environment.
Section VII Handling and Storage	Section VIII Exposure controls, personal protection
No special precautions will be required. Product should ideally be stored in a cool facility.	Product is not toxic to individuals or the environment, therefor no threat to exposure.
Section IX Physical and Chemical Properties	Section X Stability and Reactivity
Appearance: Smooth Cream Odour: Charecteristic Colour: White Moisture: Not determined Viscosity: 20 000 – 50 000cPs (Brookfield RVT, Spindle 4 @ 12rpm) pH @ 25° C: 5.00 – 6.00 Specific Gravity: 0.90 – 1.00g ml @ 25° C	Product is a stable compound no Known reactivity.
Section XI Toxicology Information	Section XII Ecological Information
Nontoxic product	No available data
Section XIII Disposal Considerations	Section XIV Transport Information
Product Disposal: This product should be disposed of in accordance with local regulations and should not be directly entered into the sewerage systems, nor should it be disposed of into the environment. Packaging Disposal: The packaging should be disposed of in accordance with the local regulations.	Classified as not hazardous for transportation
Section XV Regulatory information	Section XVI Other Information
All ingredients used in this product are deemed safe to use and are not regulated.	Disclaimer: This MSDS is intended to provide a brief summary of our knowledge and guidance regarding the use of this material. The information contained here has been compiled from sources considered by Brunational Manufacturing (Pty) Ltd. to be dependable and is accurate to the best of the Company's knowledge. It is not meant to be an all-inclusive document on worldwide hazard communication regulations. This information is offered in good faith.
